

Roxy™ Therapy Dogs

ANNUAL REPORT

20
19

“Thank you for supporting us, believing in us, and more importantly, enabling us to comfort and support the most vulnerable members of our society – the children.”

– Sharon Fleck, President

– Sharon Sexton, President

**Sharon Fleck,
President, with her
Roxy dog, Mo**

News from Our Roxy President

As Roxy™ Therapy Dogs enters its 15th year with excited anticipation for all that a new year brings, it is important to also reflect on the year we just left behind, for everything that we accomplished then, has brought us to where we are now and shaped where we will go in the future. 2019 was certainly filled with many remarkable accomplishments for our organization. We welcomed 11 new teams which brought us to a record high of 85 teams. This increase in volunteers allowed us to serve more secondary students in 2019 than we ever have before. Volunteer hours dedicated to our Secondary Student Stress Relief program were up an impressive 36% from the year before and our hours spent serving specialized students at the secondary level were up a staggering 300%.

Make no mistake, we did not achieve this alone. Our volunteers may have done the work physically, but all of these milestones would not be possible without the continued support of our generous donors and wonderful community members. So you see, this is very much a team effort – Team Roxy™. As a team, we were able to bring comfort to countless more children in our community, and that is all that we strive for.

It is not lost on us that we have the good fortune to be entering our 15th

year because we continue to be graced with generous, caring donors, wonderful community partnerships, and extraordinary, dedicated volunteers.

Thank you. Thank you for supporting us, believing in us, and more importantly, enabling us to comfort and support the most vulnerable members of our society – the children. With your continued donations, support, and trust, we will continue to be a source of comfort for the children in our community for many years to come.

News from Our Roxy Board Chair

As we enter our 15th Anniversary Year, we look back on a rewarding year of growth for Roxy Therapy Dogs. It is truly a privilege to serve such a worthwhile effort with so many amazing people.

***Cheryl Luginbuhl,
Board Chair, with
her Roxy dog, Finn***

The Board would like to extend a heartfelt thanks to all of the wonderful dogs and volunteers who make Roxy Therapy Dogs the professional, energetic, and compassionate organization it is. The community appreciates your presence and we on the Board continually hear how much your work and your dogs have made a difference.

Over the past year we've had the opportunity to hear directly from autistic and learning support professionals who have stressed the positive impact Roxy teams have in their classrooms, a 3rd grader who told us how his Roxy dog helped him learn to read, a NOVA advocate who prepares children for court in a high stress environment, an elementary school principal who described his appreciation for Roxy, and a high school counselor (and Board Member) who brought us to tears as she described the difference ten Roxy teams made to high school students and staff in the wake of a tragic suicide.

While Roxy teams are on the front line, the Board has been hard at work behind the scenes to ensure the sustainability and professionalism of the organization, discover new ways to connect with the community, and diversify our classroom

work. We are very excited to see the realization of an advanced education curriculum, which has been in the planning stages for a long time. Our new Certificate of Excellence Series is one more way Roxy can be better at what we do. Handlers tell us they would like to know more about how to work with special situations they might encounter in different programs, so this series is designed to provide insights from experts and advance the skills of our canine-assisted therapy dog teams. The first lecture and training lab will be "Insights Into the Child with Autism" and launches in March 2020. We also welcome parents, educators, other community members who think they might benefit, and non-Roxy therapy teams if dogs have a current therapy registration.

Our mission is always clearly in our sights. That mission is to serve, comfort, and inspire children in the best ways we can, using the canine-human connection which has been documented to have so many positive impacts.

As we enter our 15th year, a new decade, and a new chapter, Roxy Therapy Dogs has a lot to celebrate!

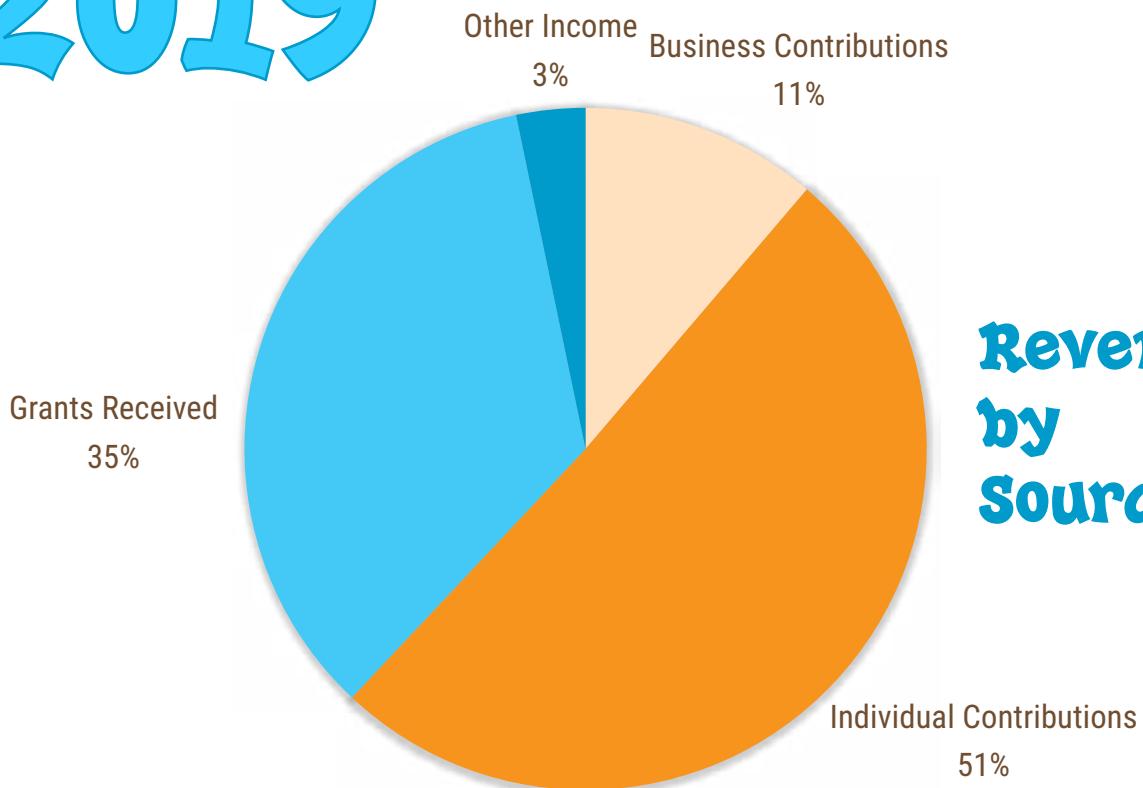

Thank you!

Roxy Therapy Dogs' 5 Programs

Bring Comfort and Support to Thousands of Area Children

1

Elementary School Reading Inspiration

Roxy's flagship program gives young readers a chance to read aloud to a furry friend in small groups or one-on-one on a weekly basis. Dogs don't judge or correct, but serve as a calming influence, building students' confidence, improving reading skills, and fostering a love of reading.

2

Student Specialized Support

Students in Autistic, Multiple Disability, Life Skills, Learning Support, and Emotional Support classes benefit from regular Roxy visits that help them maintain a sense of calm, well being and an openness to stimuli and learning while also increasing social competence and developing a sense of empathy.

3

Secondary School Stress Relief

High school students struggling with stress and anxiety benefit from the much-needed support and compassion provided by Roxy visits as part of Stress Management classes, organized support groups, and during exam times.

4

Courthouse Companionship

At the Bucks County Courthouse, Roxy therapy dogs comfort children navigating Dependency Court or who are victims of violent crime. Able to relax and remain calm with a dog by their side, children await their appointment to appear before a judge. On occasion, dogs are invited into the courtroom.

5

Pediatric Comfort

Roxy teams bring joy to children in hospital and healthcare settings. Roxy visits calm their fears, give them a break from medical procedures, and ultimately speed the healing process.

2019 Program Highlights

Bentley

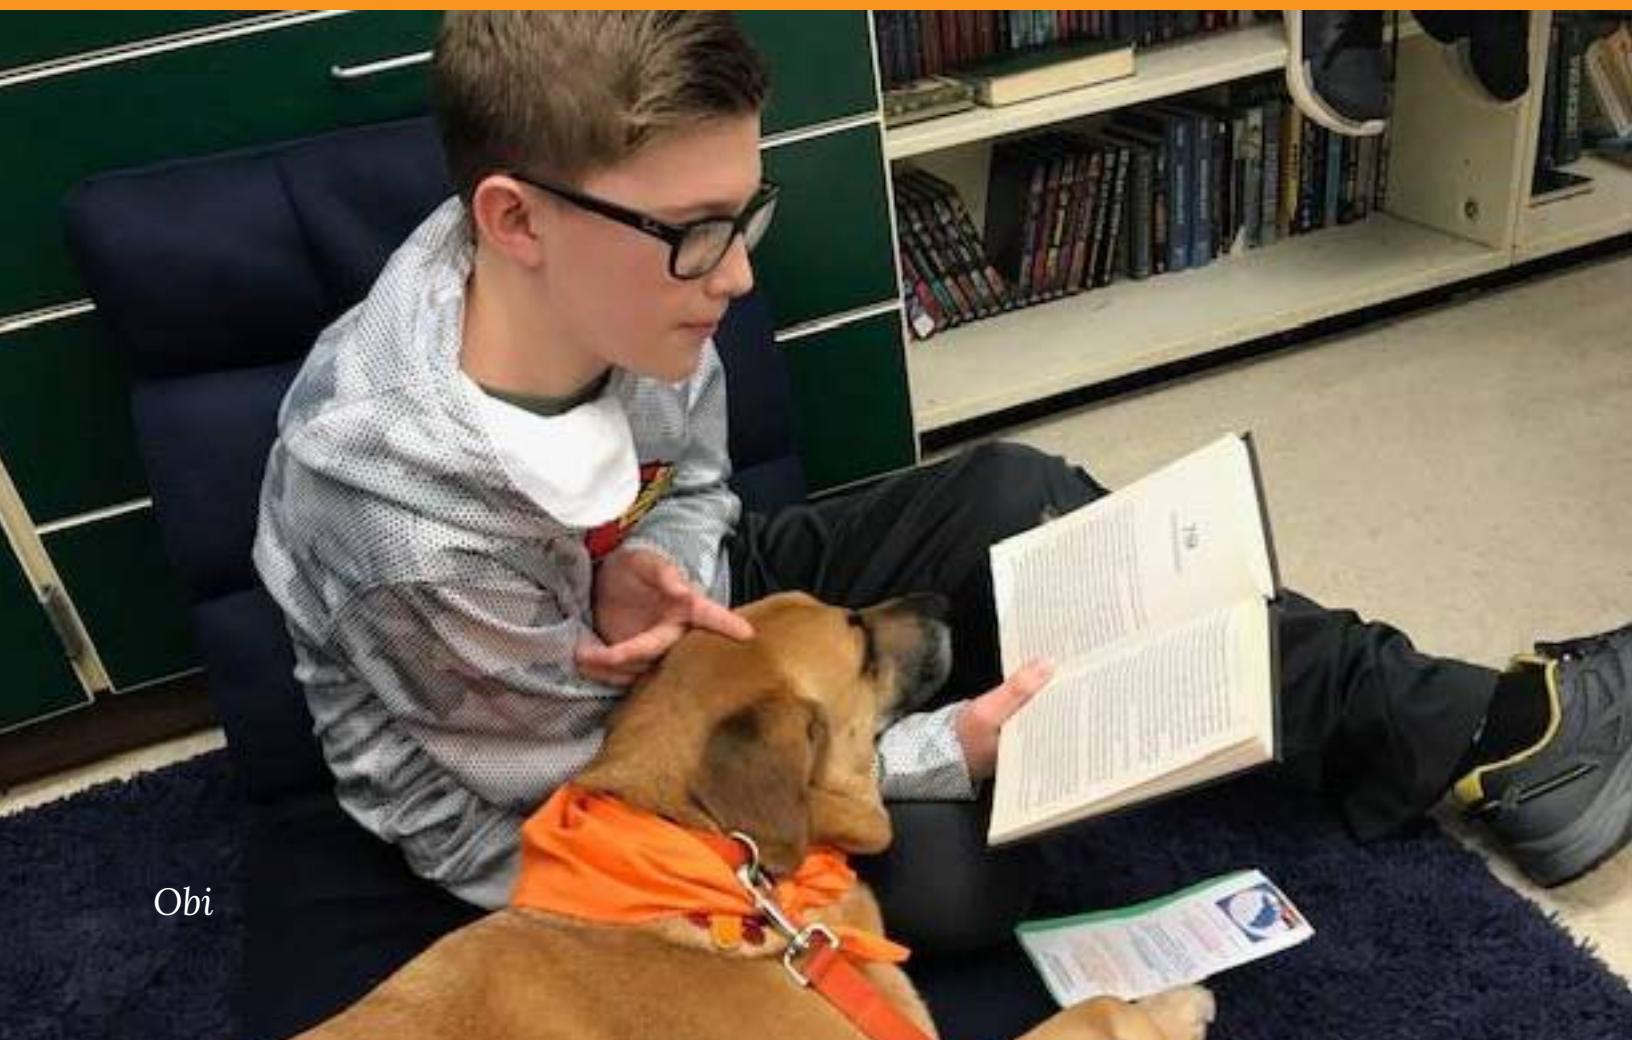

1

Elementary School Reading Inspiration

By Phyllis Mikolaj

ROXY'S FLAGSHIP PROGRAM, the Central Bucks School District's elementary school program is in its 15th year !! This program utilizes the calming effects of a therapy dog to help students become confident readers at all grade levels. Students who struggle with reading fluency, or who are uncomfortable reading aloud in front of their peers gain much needed confidence with a non-judgmental

canine friend by their side. The opportunity to practice reading aloud and develop this skill alongside a therapy dog is an invaluable tool and is the pathway to these students becoming confident life-long readers. We are so proud to be participating in over 120 classrooms and providing these benefits on a daily basis.

Obi

Student Specialized Support

My life skills class loves having Shay and Roni in our room. Before and after each visit my students are very excited and loving. They can't wait and ask each week if it is a 'Shay week.' It is something they look forward to and benefit from.

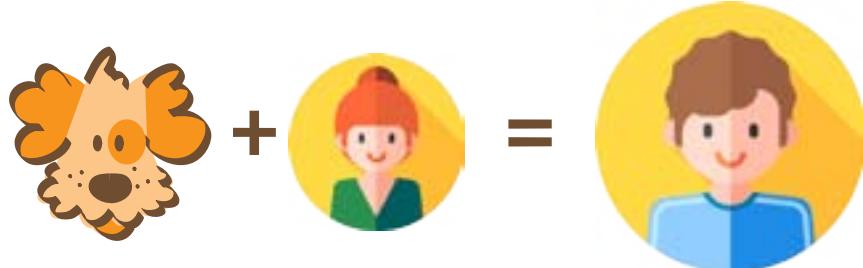

We are able to incorporate a lot of life lessons on trust, working together, being gentle and taking care of someone, responsibility, safe walking and love. Our time with Shay and Roni has helped us learn how to take turns and to walk next to someone sharing the same space.

One of the biggest take-a-ways is working on the anxiety of some of my students. We have overcome fears and anxiety by having them in our room.”

Secondary School Stress Relief

By Sharon Fleck

Our **Secondary Student Stress Relief** program continues to show very profound benefits for the high school students that we visit.

The number of Roxy volunteer hours for this program increased 36% from 2018 to 2019.

This is largely due to the inception of the CB East Roxy Club at the end of 2018 and their continued dedication to providing canine stress relief for their fellow students during stressful exam times.

Courthouse Companionship

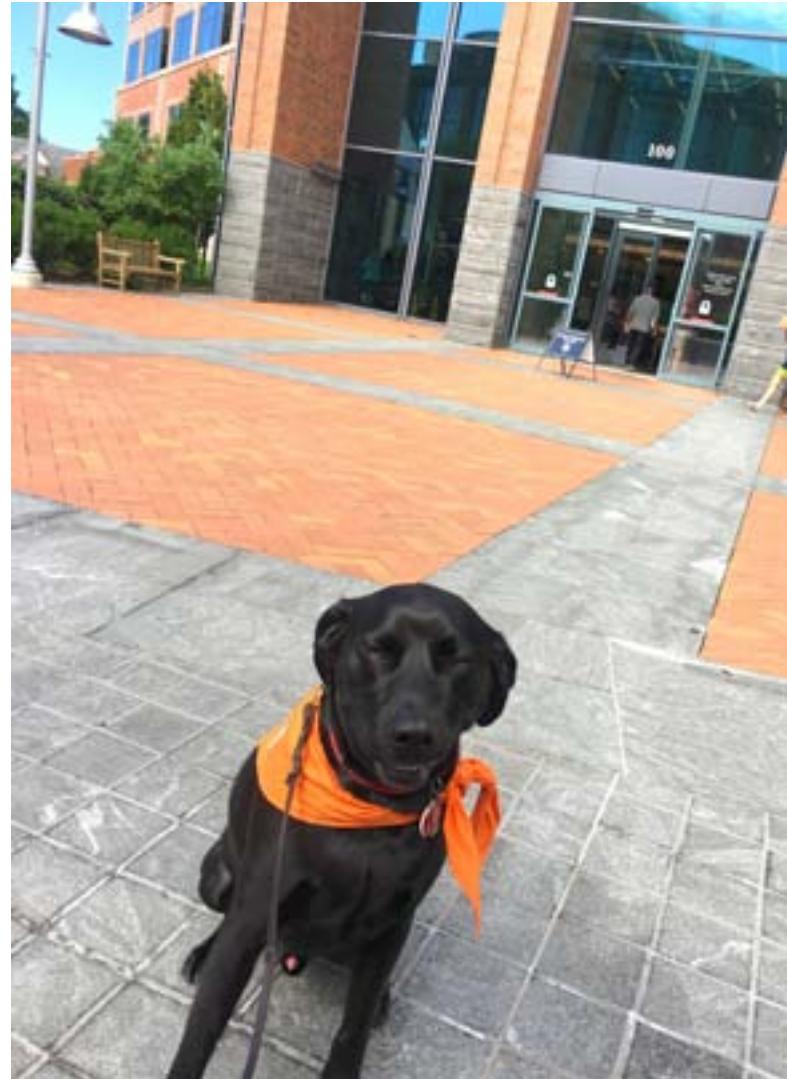

The Day I Met Judge Mellon

By Dizzy Norman

My name is Dizzy and I was lucky enough to become a Roxy Courthouse dog in May. Since then I have enjoyed helping to calm children who wait to go into Dependency Court. I use my canine cuddle superpowers while my mom gives the children Roxy puppies or *Be Like Bud* books. Some days there are very few kids there, so then I spread my Labbie-love to the lawyers and social workers to de-stress. They all seem to like me there.

One day, a nice lady named Mary Ellen invited me and my mom to visit Judge Mellon in the courtroom. I think this was a big honor, so we said yes right away. We entered the courtroom quietly and waited for Judge Mellon to talk to us. Then he asked us to come to the bench, and he sat on the stairs to meet me up close and personal. I was a little shy because I had never been in a courtroom before, but I behaved myself and listened while Judge Mellon and mom talked about me.

Both humans thanked the other for being involved with the Roxy program, and then it was time for us to leave, but not before I got some pats and hellos from other folks in the courtroom who were smiling at me. It was a fun visit with Judge Mellon. I hope we get to see him again.

Dizzy Before Court

Darla

Pediatric Comfort

Doylestown Hospital, Pediatric Unit

By Joyce Rivas

The surprise and pure joy of meeting an adorable, well-mannered Roxy therapy dog at Doylestown Hospital definitely makes kids smile and helps in all kinds of ways.

There's plenty of research out there which documents that dogs are good medicine. Petting a dog lowers blood pressure, for example. The joy of interacting with a Roxy dog has emotional perks as well. Interacting with a therapy dog can be a magical mood changer and a gateway to happy memories of pets dearly missed by young patients.

Adults who witness the bond between a child and a therapy dog are visibly moved. Caregivers are happier when their child smiles at a therapy dog. Doctors and nurses respect the value of therapy dogs. Naturally, therapy dogs only interact with youngsters who are cleared to do so and do interact with medical professionals, family and others who need and deserve a snuggle. Roxy therapy dogs love attention and therapy dog handlers enjoy seeing their dog have fun while they make a difference. Everyone wins.

The way kids interact with Roxy therapy dogs in Doylestown Hospital varies based on each child's situation and preference as well as the characteristics of the Roxy dog. **Taco**, a perfect little gentleman, may be placed with care bedside with a dog-loving youngster for an extended snuggling session. A child not quite brave enough to interact with a therapy dog is thrilled to look into her doorway and see big handsome **Juma** in his bowler hat and tie or beautiful **Carlee** smile and strike a pose. A child might ask to watch **Josie** do tricks in the doorway one day and the next day be ready to touch **Maggie**'s soft curls with one little finger. A tyke can explore 100-pound **Boomer**'s ears as he lays Sphinx-like in the middle of the Hospital's bustling lobby. An adorable little girl showcases her gift shop finds like an infomercial pro to her audience, starstruck **Scooter**. **Bentley** happily entertains a tween waiting on his lab test and **Sam** shows teens what retirement can mean for a racetrack dog.

Darla and all of the Roxy therapy dogs at Doylestown Hospital have the training, talent, temperament and commitment to be a hospital hero and the wagging tail X-factor that makes everyone feel a little better.

Pediatric Comfort

Pedia Manor

By Tracey Vazquez

Visiting Pedia Manor can be bittersweet.

We get to know these children who struggle everyday in one way or another. They look forward to our visits, some play it cool when we arrive, others cannot contain their excitement.

One girl in particular is Nivea. She would tell us how she loved to ride the bus to school, when her birthday was, and how old she would be. We especially loved her telling us what she would be for Halloween! She acted too cool to get excited about the dogs at first, then she would follow us everywhere we went, petting the dogs constantly. She always made us want to come back and visit!

Next we have Mohammed, or Mo who was so afraid of the dogs that he would cry and cling to the staff. As time would have it he became used to our visits and would venture a little closer every time we visited. We watched Mo with amazement as we went from room to room visiting, peeking around the corner to see us! He came around so quickly we didn't know what happened at first, now when we visited Mo shrieked with excitement whenever we walked through the doors. That was all we needed to convince us that we belonged there.

Like every good thing, one day when we visited Nivea and Mo we found that they were both gone, they finally were able to go home to their families who waited patiently for that day to come.

We felt so happy for them, always the end result we strive for the kids, but it left a hole in our hearts. So maybe bittersweet as it is, we love every minute we spend with these kids, and hope we see more "go home" in the future!

Roxy In Our Community

Healthy Kids Day

APRIL 13 Healthy Kids Day at the Doylestown Y was April 13, 2019. Roxy's therapy dogs were there to greet children and learn about how pets keep us healthy.

Bucks County 911 Call Center

APRIL 15 AND 17 Roxy dogs teams visited the Bucks County 911 Call Center on 2 days in April 2019 to make it a more relaxing day at the call center which supports all of Bucks County.

DelVal A-Day

APRIL 28 Roxy Therapy Dogs always enjoys participating in this annual event as it gives us a chance to meet and interact with so many wonderful people in our community.

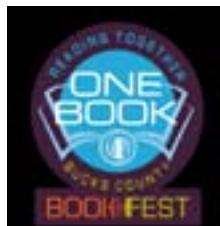

Mental Health Day

MAY 19 Child and Family Focus of Bucks County organized a Mental Health Day of information at George W. Bush Park in Doylestown. Roxy dogs were on hand and children had the opportunity to meet them as well as read to them.

You can find Roxy Therapy Dogs at lots of events in our community. Stop by to say hello and get some therapy dog love.

Bucks County Book Festival

OCTOBER 12 was the Bucks County Book Festival. This year Roxy dog teams were stationed at the Doylestown Firehouse where children could stop, drop, and roll with the dogs while reading to them.

Sip and Shop at the Bucks County Bar Association

NOVEMBER 7 was the Sip and Shop at the Bucks County Bar Association in Doylestown which is an annual event where people can start thinking about their holiday shopping while petting our dogs and looking at the crafters.

21

.....

Shops at South

NOVEMBER 24 was the annual Shops at South event which is a large collection of local vendors offering gift ideas for the Holidays. This event is also a fundraiser for the music department at CB South. Roxy dogs were on hand to provide shoppers a chance to take a relaxing break from their shopping and get some puppy love.

CB East Principal Lori Gallagher-Landis says she has personally witnessed the positive effects the presence of Roxy dogs has on student stress levels, morale, and overall emotional well-being.

Roxy Club at CB East

Over the course of 2019, the CB East Roxy Club has held several fundraisers and raised almost \$200 in donations that will eventually be donated to Roxy Therapy Dogs. The club's photo fundraisers are incredibly popular; the students, faculty and dogs love them! The club also had many opportunities to provide stress relief for the student body of CB East during times of midterms, finals, AP exams, etc. by having Roxy dogs on "paw".

What Does Roxy Do With The Funds?

What does Roxy do with the funds that are raised from our generous supporters if we are an all-volunteer organization?

Maybe you didn't know that...

ALL VOLUNTEER

24

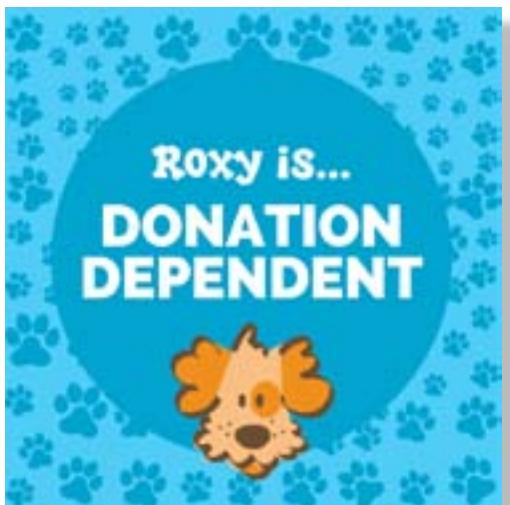

NO CHARGE

Roxy Therapy Dogs is an all-volunteer organization. For 15 years, Roxy has relied on volunteers to provide their own certified therapy dogs to help children, serve as executives, board members, advisors, administrative staff, program directors, committee members, and event organizers, etc. The list is long.

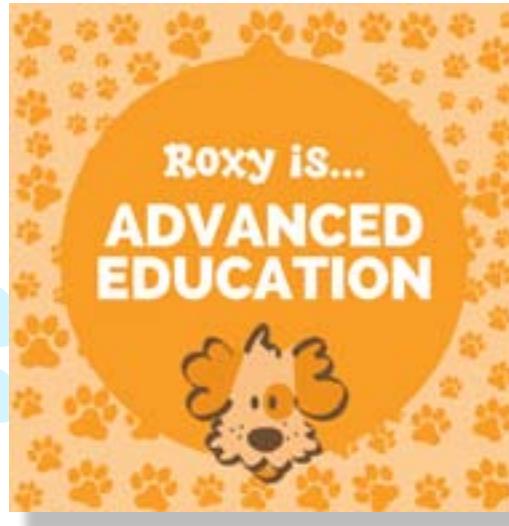

But even though there is no paid staff, Roxy strives to function like a best practices non-profit with paid staff to ensure that therapy dog services are delivered to children in our community in the best way possible.

One of the reasons we need donations and support from the community is that Roxy does not receive any payment from our venues. The Central Bucks School District, the Bucks County Courthouse, Doylestown Hospital, and Pedia Manor enjoy the benefits of our certified therapy dog teams free of charge. The demand grows each year.

DONATIONS ARE OUR LIFELINE

Your support ensures that Roxy can continue its mission. Your donation covers recruiting new therapy teams, administrative expenses, insurance expense, communications, website maintenance, electronic newsletters, professional services, and fees for special events so that we can share Roxy Dogs with everyone in the community.

ADVANCED EDUCATION IS OUR FUTURE.

After two years of research and planning, Roxy is ready to launch the Certificate of Excellence Series and we need your support. Advanced therapy skills for specific situations like insights into autism, advanced trauma, anxiety, and more, will strengthen the organization and enhance the experience for children, families, dogs and volunteers. It will also help Roxy to continue its mission into the future.

Bullet Giving Kisses

Advancement Highlights

Once again in 2019, the Advancement Committee, with the help of Marketing and all of you, ran a successful Annual Appeal and #Giving Tuesday. We raised a total of \$7,704.30. Thank you to everyone who supported us.

Another critical fundraising effort for the Advancement team was, and is, to support the new Certificate of Excellence program, our educational initiative to provide advanced training for our teams and the general public in understanding the children we visit with autism, trauma issues, and more. Cheryl Luginbuhl, our experienced grant writer, has worked hard at successfully finding and writing grants to fund this program. She has already brought in \$7,500 from Foundations Community Partnership and has several other possibilities in the works!

The total raised in 2019 to support Roxy was \$32,313.

This will continue our efforts to make sure Roxy Therapy Dogs remains an organization that meets the demand in the Central Bucks community to bring comfort to children, to enhance the experience of learning, and to enrich the lives of our human and canine volunteers.

You Shop. Roxy Benefits.

Did you know that you can designate Roxy™ Therapy Dogs as your Amazon charitable organization and each time you shop, a portion of your purchase goes to Roxy? At no cost to you? Automatically?

Easy Peasy

All you need to do is designate Roxy as your AmazonSmile organization and then be sure to order from your AmazonSmile page (not your regular account). How easy is that?

What Is AmazonSmile?

AmazonSmile is a website operated by Amazon with the same products, prices, and shopping features as Amazon.com. The difference is that when you shop on AmazonSmile, the AmazonSmile Foundation will donate 0.5% of the purchase price of eligible products to the charitable organization of your choice.

31

Little Dollars Grow to Big Ones

If all of Roxy's family and fans used AmazonSmile, we'd receive hundreds, if not thousands, of dollars on a regular basis, with no effort on anyone's part. At Roxy, every single dollar counts towards sustaining our efforts to help children in our area receive calm and comfort from our sweet therapy dogs.
